

NOTES ABOUT TOWN.

Business is certainly reviving, as is evidenced by the activity of our dealers, among other places, on Flax-seed row. Kehoe has been by his advertisement, has come out with a famous stock, comprising all manner of "undergarments," suited to all ages, sexes, and sized prices. His establishment is filled with piles of boxes containing felt garments of every kind, from the delicate lady's slipper to the rough mud brawler. Kid, moose, calf-skin and sole leather can be found there in many a varied form.

Miller & Elms too, have put a new face on affairs at their establishment, and now stand ready to do the general for all manner of masculine forms of humanity. Many a man has left their establishment better looking than he went in, let alone being prouder of himself and his country.

The largest Yet.
We received from Mrs. E. Kinney, the largest and most delicious peach we have seen this season. It was just nine inches in circumference. The donor has our thanks.

While almost every town and village has more or less of sickness, the good people of Greensburg, Ky., have great reason to be thankful for health. Since January, 1894, almost two years, there has been only one adult person died, and two infants, making three burials in their entire population.

We have heard a continuous ringing of bells at foot of Market street wharf, and supposed our shipping facilities were enlarging, but discover that it is the ferry boat bell, newly hung, which admonishes travelers to mind their time. Speaking of bells reminds us we have heard, that it is contemplated to raise a new bell in the tower of the Gothic Church, now building on Court street, as soon as it is ready to receive it.

Some of the "lads and lasses" of our town, were on a pleasure excursion up the river, the other day. They rendezvoused in the romantic region of the Hanging Rock. They report that they were well pleased with the scenery thereabouts and that they enjoyed themselves hugely.

Review of the Portsmouth Market, for the week ending, Sept. 2, 1890.

GENERAL REMARKS.—The week now ending has not been particularly brisk in the way of business, though the arrivals at hotels have been large. Some important sales of real estate, have been made during the week, and we may hope the same will be speedily improved, as it is understood arrangements are already making for a steam flouring mill on one of the lots.

The friends of the Railroad are active, and their hopes buoyant. It is expected that the work will be located to Jackson, and put under contract this season.

Freights have slightly advanced during the week to Pittsburgh, although but little is going forward.

A few particulars of our market as they have transpired on "change," and have been picked up by our reporter and subjoined:

FLOUR & GRAIN.—Our quotation of flour on last Monday, was \$3.85 with firmness in the market. On Tuesday an advance of 10c. per bl. was contended for, and small parcels sold, but the prices fell back during the day, and \$3.85 may still be called the top of the market. The prospect of a new steam mill, although it will not be in operation till the succeeding harvest, is noticed favorably, as an indication of the steady increased importance of the markets. Jackson county is pouring in her Wheat and Oats, and large supplies have also arrived by canal to Union Mills. The quotations for wheat and oats, remain the same as noted last week.

Bacon.—This article is wholly of retail character, and at prices affording small profit to sellers.

Salt.—The Salt association have not reduced their rates, and 38c per bushel is still the price at retail. We notice an arrival of 607 bbls. to one house on Friday last.

COFFEES.—Increased firmness is noted in Coffee trade. Sales at 11 and 14 have been made during the week.

SUGAR AND MOLASSES.—As the season advances the staples hold their own, the stock is light, and a still further advance is contended for. 63 and 74 are the quotations for Sugar by hhd. and 74 cents for molasses.

RICE.—Sales of Rice at 5 cents, and but limited enquiry.

WHISKY.—We have no attention to make in selling rates of whisky. 21 and 22 are averaged sales. Shipments to Gallipolis and Mayville, were made during the week.

FAMILY MARKETS.—For the benefit of those of our readers, who contemplate house keeping, and also those, who will not brave the fogs of market mornings to learn the prices of substantial things offered, our junior reports such fine displays of choice peaches, and other fruits, also vegetables ripe and unripe, Beef fat and all but the fat, as would induce all to attend, and if so, quotations are unnecessary.

WHOLESALE & RETAIL.—On as favorable terms as similar articles can be obtained for, here or elsewhere in the west.

As much of my stock has been manufactured for my own trade, I am able to warrant it as equal in quality to any other in this place, whether imported or manufactured, and can assure my customers and the public generally that I can sell as GOOD WORK and as LOW A PRICE, as any other dealer or manufacturer in this place.

A very full assortment of Caps, Trunks, Carpet Bags, Satchels, etc., etc., always on hand. M. KEHOE.

BRANDRETH'S PILLS ARE A SURE CURE FOR

INFUENZA.

This complaint has become so frequent, that there are few persons who have not had it several times. It is a kind of a malignant contagious cold attended with much fever, and great prostration of health. So soon as possible, swallow six or eight Pills; a large dose is absolutely necessary to relieve the brain, that organ appearing to suffer greatly in this complaint. When they have operated well, put your feet and legs in hot water, or take a hot bath. Be sure and be purged, before you use any means of increasing the circulation, or your life may be forfeit. Now go to bed, and when in bed take two more pills and some hot bosquet tea, catnip, or balm or balsam, or some water gruel—any of these warm drinks will answer, and which may be left to choice—either of them will help to restore insensible perspiration and this method will generally cure. Should however, the patient, after the pills and this after treatment, not be better in the morning, let him take another six, eight or ten pills more according to the urgency of symptoms, and the warm drinks, and foot or general bath at night. My experience has shown me that the third day generally finds the patient well, when this plan has been adopted in the beginning. But in any event the continuance of the treatment, in the best that can be adopted, whether it takes one day or twenty to effect the cure. However, the head may be never let the blood be drawn or leeches applied; we want all the blood we have. Instead of losing this "life of our flesh," let us take more pills which will take the death principle from us, leaving our blood relieved and ready to rally all its life powers for our restoration so soon as the purgation has left it free to effect this object.

CHOLERA.

This terrible disease has related nearly all the efforts of medicine to arrest its progress, but Brandreth's Pills almost immediately after they are swallowed exert a beneficial influence.

They carry out of the system the irritating matter upon which the disease depends for its continuance; they arouse the vital powers and restore warmth to the surface previously chilled by the cholera of approaching death. There is no occasion for fear, provided Brandreth's pills are on hand for immediate use; their prompt administration will banish the malady and restore the health.
